### Connection Status

Connection: Connected  
Account Balance: EUR 402.26 €

### Connect to Keybin API

Keybin.net verified account and whitelisted IP is required. When connected, all purchases are live and nonrefundable. Test with product ID: 11000000300, 10000048370, or 10000048369.

#### API Access Token

Your API token can be found on my.keybin.net under Account Settings (Access Tokens). When creating a token, leave the expire date blank or remember to renew before expiry.

Keybin Access Token

[Save all settings](#)

### Margin

Set a fixed margin and/or percentage margins. Formula: **Keybin price × Price Multiplier + Fixed Margin + Margin = Your price**. Use negative values to deduct (e.g. -3 will subtract 3% or 3€ from the price).

#### Price Multiplier

Useful for currency conversion. Imported price multiplied by value (example: 6.6, leave empty to ignore):

x

Margin priority (highest to lowest):

1. Per-region margin (if set for product's region)
2. Per-platform margin (if set for product's platform)
3. Per-category margin (% or €, highest value if multiple categories match)
4. Global percentage margin (default fallback)

Fixed margin, price multiplier, and price-range margin are always applied independently, before the priority chain above.

Fixed margin  € + Global percent margin  %

**Per-category margin** (overrides global). If a product belongs to multiple matching categories, the highest margin is used.

Action	<input type="text" value="5"/>	%	<input type="button" value="x"/>
ASOS	<input type="text" value="2"/>	%	<input type="button" value="x"/>
Gaming Gift Cards	<input type="text" value="5"/>	%	<input type="button" value="x"/>
Steam	<input type="text" value="10"/>	%	<input type="button" value="x"/>

[+ Add category margin](#)

**Price-range margin** (standalone — always applied when price matches a range, in addition to any other margins). Ranges must not overlap. Use exact boundaries (e.g. 5.00-9.99, then 10.00-29.99). Based on the Keybin base price before any margins are applied.

€ -  € →  %   
 € -  € →  %

[+ Add price range margin](#)

**Per-platform percentage margin** (overrides category and global).

Steam  %

[+ Add platform margin](#)

**Per-region percentage margin** (highest priority — overrides everything above).

Portugal  %

### Low Balance Notification

Set a notification on low balance on your Keybin marketplace profile.

### Import Filter

- Do not import products without stock (only instant delivery products imported).
- Import and activate products automatically (un-checked = imported as drafts).

**Import only selected Platforms** (leave empty for all). Changes apply on next import.

[+ Add platform filter](#)

**Import only selected Regions** (leave empty for all). Changes apply on next import.

[+ Add region filter](#)

Import products with price above (leave blank to ignore)  €

Import products with price below (leave blank to ignore)  €

**Import only specific SKUs** (leave empty to import all). Enter Keybin product IDs separated by commas. Changes apply on next import.

[Save all settings](#)

### Category & Attribute Mapping

Categories imported 315 categories found — last synced 2026-02-19 18:05:07

Fetch all category and genre names from the Keybin catalog. This scans all product pages and may take 20-90 minutes depending on your server resources. You can close the tab and return later or refresh this page to check progress. If import stops run it again and will continue from the pages it was interrupted. To prevent stops left server timeout time (contact your hosting provider). Normally it

### KEYBIN

#### Keybin WP API Plugin

Import products from Keybin.net, sync stock and price, automatic purchases and delivery. Works with all WordPress-compliant themes. Test on staging before production.

[Documentation](#)

#### Support & Bug Reports

Email [info@keybin.net](mailto:info@keybin.net) for plugin support.

[Keybin Marketplace](#)

Import Keybin Categories

Category Import Progress

Pages: 3068 / 3068 (100%) — Complete

Auto-create unmapped categories (if unchecked, only mapped or already existing categories are assigned).

Category Mapping

Map Keybin category names to your WooCommerce categories. Unmapped categories will use the Keybin name (if auto-create is enabled) or be skipped.

Accounting and Finance → Action & Shooting

+ Add category mapping + Prefill all unmapped categories

Attribute Mapping

Rename Keybin platform/region values for display in your store. The original Keybin value is shown on the left, your custom display name on the right.

Platform: Opskins → ops

+ Add attribute mapping + Prefill all unmapped attributes

Save all settings

More Settings

- Autocomplete and deliver orders. Only "Processing" orders are completed automatically.
- Re-check price on cart and checkout. Updates prices and removes out-of-stock items before purchase.
- Round prices (e.g., 10.45 → 10.49 | 6.34 → 6.29).
- Enter prices in Sale Price field (requires regular price from another source).
- Update images when using "Update Product Data" (usually un-checked).

Restrictions Notice Color

Enable custom color for restriction notices. If unchecked, no color styling is applied.

#dc2626

Country Restrictions in Description

Append allowed/excluded country list to the product description (below the restrictions notice).

Region Restriction Checker

Enable region restriction checker on product pages. Shows a button that opens a popup with country search and auto-detected region.

Position on product page

Before Add to Cart

Use shortcode `[keybinflow_region_check]` for manual placement anywhere on the product page.

Save all settings

Product Tester

Enter a Keybin product SKU to fetch product data and preview the calculated price based on your current settings. This also shows all data that would be imported.

Note: Changed settings must be saved first for the tester to show correct data. Test products IDs: 11000000300, 10000048370, or 10000048369.

[Update Product](#) [Edit in WooCommerce](#)

## Webhooks

Webhooks enable real-time communication between Keybin and your store. Instead of polling, the server sends data instantly when events occur.

**Import products via cron first. Webhooks supplement but do not replace daily imports.** We strongly advise setting up Webhooks for the latest stock and price.

Navigate to [my.keybin.net/account](#) → API Settings → API Webhooks → New Webhook. Copy the endpoints below. Set **Status** to Active on all Webhooks. In "Secret" field on Keybin enter whatever as its not relevant for our case.

### Webhook Secret Token:

This token authenticates incoming webhooks. Enter token, save and copy the webhooks to Keybin webhook link. Token is automatically included in the endpoint URLs below. If you change it, update all webhooks in your Keybin dashboard.

[Save](#)

**listing\_create** - Update stock/price on new listing:

[https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo\\_listing\\_create&keybfovo\\_secret=1337](https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo_listing_create&keybfovo_secret=1337) [Copy](#)

**listing\_update** - Update stock/price on listing change:

[https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo\\_listing\\_update&keybfovo\\_secret=1337](https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo_listing_update&keybfovo_secret=1337) [Copy](#)

**product\_create** - Add new products as draft:

[https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo\\_product\\_create&keybfovo\\_secret=1337](https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo_product_create&keybfovo_secret=1337) [Copy](#)

**product\_update** - Update existing product data (title, description, categories), this will override your existing product information:

[https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo\\_product\\_update&keybfovo\\_secret=1337](https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo_product_update&keybfovo_secret=1337) [Copy](#)

**product\_remove** - Trash removed products:

[https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo\\_product\\_remove&keybfovo\\_secret=1337](https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo_product_remove&keybfovo_secret=1337) [Copy](#)

**order\_update** - Complete orders when keys become available:

[https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo\\_order\\_update&keybfovo\\_secret=1337](https://wpdemo.keybin.net/wp-admin/admin-ajax.php?action=keybfovo_order_update&keybfovo_secret=1337) [Copy](#)

Test listing updates by comparing the Keybin Listing ID on Product Data with offers on [my.keybin.net](#). If your server times out, increase `memory_limit` in `php.ini` (up to 2048MB).

### Import Status

#### Products Import / Update

Last successful import 2026/02/19 at 07:12 pm — 1 hours ago

#### Stock and Price Update

Last successful update 2026/02/19 at 07:39 pm — 0.5 hours ago

### Error Notifications

Email address to receive cron job failure notifications. Leave empty to use the WordPress admin email (tadej@legit.si).

tadej@legit.si

Save

### Scheduled Tasks

Automated tasks run via WordPress Cron (WP-Cron). Change the frequency using the dropdown, or set to Disabled to turn off automatic execution. You can always trigger tasks manually from the Manual Import section below. Changes are autosaved.

#### Purchase and order delivery — next: 9 minutes from now

Every 5 minutes  Log

#### Stock and price update — next: 47 minutes from now

Every 2 hours  Log

#### Product import — next: 23 hours from now

Daily  Log

#### Restrictions update — next: 7 days from now

Weekly  Log

#### Update existing product data — On demand only

Log

**Webhook logs** Log incoming webhook events (product create/update, listing changes, order keys)

**Product change logs** Log before/after values when products are updated (price, stock, title)

Auto-delete logs older than  days Save

**Server cron alternative:** For reliable scheduling, disable WP-Cron and use a real server cronab instead. WP-Cron depends on site visitors to trigger tasks — a real cron runs on time regardless of traffic.

**Step 1.** Add to `wp-config.php` (before the "stop editing" line):

```
define('DISABLE_WP_CRON', true); Copy
```

**Step 2.** Add a cronab entry on your server (`crontab -e`):

```
*/3 * * * * curl -s https://wpdemo.keybin.net/wp-cron.php > /dev/null 2>&1 Copy
```

This runs every 3 minutes. WordPress will only execute tasks that are actually due, so frequent checks are safe. The `curl` method is preferred over `php wp-cron.php` because it loads WordPress through the web server exactly like a normal request.

Platforms and regions are synced automatically when you open the Settings or Imports page.

If your server is experiencing timeouts, increase `memory_limit` in `php.ini` (up to 2048MB).

### Manual Import

#### Import New Products

When starting manual import, wait a few hours before pressing again. You can close this page and check WooCommerce → All Products for newly added products. Importing the entire catalog can take up to 48 hours and may timeout — press Import again after a few hours if needed.

It is normal for the import page to timeout. Check the All Products page to verify new products.

Import New Products

Pages: 780 / 780 (100%) — Complete — Reset

#### Update Stock and Price

Syncs stock availability and prices from Keybin for all existing products.

Update Stock and Price

Pages: 780 / 780 (100%) — Complete — Reset

#### Complete Orders

Manually process and complete pending orders.

Complete Orders

#### Update Product Data

Updates existing product data (title, description, categories) but does not change product URLs. Images are updated only if enabled under Settings → More Settings. Use cautiously as it will overwrite any manual product changes.

Update Product Data

Pages: 0 / 3068 (0%) — Reset

#### Update Restrictions Data

Lightweight update: only updates restriction notices and country restrictions for existing products. Does not change prices, stock, categories, or images. Recommended to run once a week.

Update Restrictions

Pages: 3068 / 3068 (100%) — Complete — Reset
